## Logo

This is our primary logo. Note the vertical lockup.

## Clearspace

Our logo should always have space to breathe. Please don't put anything in the red zone.

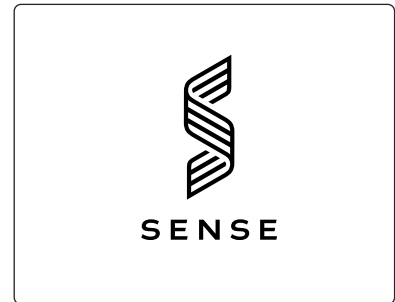

## Color

Our blue logo is our primary logo.

White logo is used only on backgrounds that are so dark that the blue logo cannot be seen properly.

Black logo is used only on a white background and only if it is really necessary for printing (e.g. greyscale printing)

## Logo don't's

Please don't use only the S in our logo.

"Sense" should never be used without the logomark.

Please don't change the color of any part of the logo.

And please do not stretch our logo in any way.
